

Run The Show DMX

Lighting board for iPad

Run the Show DMX is a professional lighting board but intuitive use

- Compatible application with any iPad from the iPad 2 under iOS 6 at least.
- Application designed to control the RTS DMX 512 box but also having an Art-Net mode (integrated purchase) to pilot any Art-Net node connected to a WIFI router.
- Especially designed so that the basic functions are totally intuitive (direct command, memorization of cues, transitions). The reorganization of the stored scenes is made of a single gesture.
- 48 faders and one DMX universe (512 channels) by the use of libraries of customizable devices.
- As any great lighting console, Run The Show DMX is equipped with an electronic patch extremely easy to use.
- The application backs up automatically every action.

Price: RTS DMX is free

Art-Net mode: 99,99 €
