

Run The Show

Live Performance Application

Run the Show is the ultimate tool for stage managers or technicians for live performances.

Spec sheets, precision timing during shows, music triggering, red flags on crucial cues, note-taking... Everything needed to assure technical control and to guarantee no loss of pertinent information.

- Application compatible with every iPad (iPad 2 and more recent) under iOS 6 at least.
- Fast typing, synthetic and illustrated with useful informations for each part or each act (cues, lights, expected effects). The running order of the artists or the acts can be changed in a simple gesture.
- Precise timing, with or without the music, programmable alarms to assist the light and sound technicians during the show.
- The musics are played inside the application on automatic timer or in manual mode.
- PDF export of cue sheets and riders, informations for the MC, for the props manager, for the syage managers...
- Connected to Dropbox, everything is all the time available!
